

Before Your Pathways Investigation

Please review the following prior to a Pathways investigation by RestCon Environmental.

- **Please notify your consultant if you have been using products with enzymes.**
- Prior to your inspection, **furniture and other personal belongings should be moved at least 2 feet away from walls** in order for us to provide the most detailed results. Your Indoor Environmental Consultant will not move furniture and personal items. If you are unable to move the furniture yourself, please consider hiring your restoration professional or a professional mover. If you do not know someone who can prepare your home in this way, please contact our office or your consultant for recommendations.
- **Please remove personal belongings from vanities and cabinets under sinks to provide access.**
- **Do not schedule indoor maintenance, cleaning service, or perform cleaning activities before the inspection.** Please discuss with your consultant for how long.
- **The day before the inspection** you will be contacted by your Indoor Environmental Consultant to confirm your appointment and answer any pre-inspection questions you may have.

Please call the office at 916-736-1100 with any questions or concerns.
